Professional Summary

Multilingual junior web developer with a Distinction MSc in Computing & Information Systems from Queen Mary University of London and hands-on experience localising production web pages in HTML/CSS. Proficient in React, Python and JavaScript and continually developing new skills through personal projects, most recently by learning Django to become proficient in both the front- and back end. Strong cross-team communication developed through prior international teaching experience. Looking to bring a detail-oriented, self-driven approach to an entry-level web or software development role.

Professional Experience

Web Developer, Elvis (F.K.A. House 337)

January – March 2026, August – September 2026

- Edited and localised web pages in HTML/CSS for a top-5 US tech company's product launch, adapting layouts for multiple European markets while maintaining each country's orthographical and product-availability standards.
- Diagnosed and fixed copy/layout bugs introduced by translation, working across a large multilingual codebase under a fixed-contract deadline and confidential conditions.
- Implemented responsive, cross-browser layouts using custom CSS classes and media queries for consistent rendering on desktop and mobile.
- Used SVN for version control, including company-specific custom commands, as part of a distributed team of developers, QA validators, translators and project managers.

English Language Assistant, British Council

September 2022 – May 2024

- Delivered two nine-month teaching placements in Munich and Hamburg, planning and presenting bilingual lessons that introduced new topics and grammatical concepts to students of varying abilities.
- Led group and individual discussions in English, encouraging independent argument-building
- Coordinated with teaching staff and school groups from Spain and Italy, mediating and facilitating communication in English between the German students and the students from abroad
